The MAILING DATE of this communication onno					
THE REPLY FILED 10 February 2003 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued					
Examination (RCE) in compliance with 37 CFR 1.114.		•			
PERIOD FOR REPLY [check either a) or b)]					
a) The period for reply expires 3 months from the mailing date of the final rejection. b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action: or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
1. A Notice of Appeal was filed on Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.					
2. The proposed amendment(s) will not be entered because:					
(a) they raise new issues that would require further consideration and/or search (see NOTE below);					
(b) they raise the issue of new matter (see Note below);					
(c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or					
(d) they present additional claims without canceli NOTE:	ng a corresponding number of f	inally rejected claims.

Continuation of 10. Other: The applicant's arguments have been considered but are not persuasive. Applicant argues "Schulzrinne et al. also...is not the case" (page 4, paragraph 2-3). This is not persuasive because the Schulzrinne et al. reference is based on call initiation and setup (title). The actions taken in the reference are in response to the initiation of a session (i.e. call). Also, as noted in previous rejections, the router is provided with quality of service information. As noted in the previous action "the installation of the QoS policy at the router is described in the Schulzrinne reference, the specific idea of installing at least one of resource usage, policy, authorization, authentication, and accounting information at a server is shown in the Gutman et al. reference." Note that it is not stated that the Schulzrinne reference teaches the use of "resource usage" in the routing decision. It merely states that information is forwarded to the router. The motivation for the combination of references is shown in the previous rejections.
